
Microsoft Visual Studio 2008 Registration Key [Express Register]

If you still cannot register, I recommend that you download the ISO version of Visual Studio 2008 Express from here: ... I downloaded and installed Visual Studio Express 2008 ... I then downloaded from the Visual Studio Server 2008 Express website and it works with Visual Studio 2008 Express... Now, if you just want to install Visual Studio Server 2008 Express, you can also do the following: Download the latest Server 2008 Express from the Visual Studio website... Copy the downloaded file from the "Server 2008 Express" website to a CD... I am now using Visual Studio Express 2008 ISO
