Manakete Planning to Do Some Serious Changes to Evolve to Current MMO Standards And with the recent change of legal representative, we are told to expect some big changes being made in the next year. -- Kotaku Korea

----- Here's that speech by Tarnith on the official website for Final Fantasy XIV: A Realm Reborn. "Hello everyone! I'm going to ask a question I've been anxious to ask since the day we released the previous version of Final Fantasy XIV. The question is: "Do you feel that the current version of Final Fantasy XIV has improved on the more recent Final Fantasy XIV Zodiac Age?" My answer is: I feel that I couldn't have made Final Fantasy XIV Zodiac Age if it weren't for the reviews and feedback I received from our subscribers and all of you. I was very happy when people spoke about the way they could do more with the game. I felt that I had to put out as much effort as I could to deliver on this feedback. Our main staff members were working hard day and night to make this happen, so I'm confident that the server update will make a positive impression to new players coming in.

----- Change of Lead Studio Developer The official website for Secret of Mana revealed that they have appointed Final Fantasy: Versus developer Robin Kinlan (award winning Studio System Engineer/Final Fantasy VI, and Final Fantasy Tactics) to the position of lead developer. Robin has proved himself to be a talented developer, and we are confident that with his experience, Final Fantasy: Versus will be a wonderful game.

----- Today, Square Enix announced that they are planning to "completely overhaul" Final Fantasy XIV to make it better than ever. This was the same announcement as a year ago, so we can only assume that no new progress has been made. ----- I'm disappointed that we're now into year two, and the only changes we've made to solve FFXIV's major issues have been support services. We've shown that we are capable of improving the game, but only now has it become time for the game to
