The first thing to be noted is the story. It's an original story, a 10 chapter story, based on the mythical sword Eidynd. The battle between the ordinary man and the Holy Sword is over. The most powerful Holy Sword, Silver Arm, is chosen as the representative of the Holy Sword in the end of the war. The hero, who has the whole world in his hand, is on the verge of being crowned as the Holy Lord. The story says that the hero is on the verge of becoming a Holy Lord, which is a thrilling story that'll keep you on your toes. And the role of the hero is also unique. He is a boy in 10 years old who is childish but has true potential. The protagonist's strength of will, perception, and character comes out at the right time. He was loved by the world, and a title was granted at once. The attention to detail and the uniqueness of the story are the first thing that really stood out. The game starts out with a recap of the past story, which is a novel approach. The crystal clear visuals and the harmony between the scenes and the characters are the second feature that stood out. To put it simply, the scenes are all crystal clear and there is a balance between the brightness, contrast, and saturation. All the characters' features are detailed and there is a fine balance between the green and red. The scenery is full of color, and there is a harmony between the background and characters. The sound effects and voice are also beautiful. The music is lively and energetic, and the sound FX such as casting runes and items being used is also appropriate. You experience the story by performing simple actions of battle and conversation. The story progression depends on whether you continue to fight and talk or keep quiet and not use runes. And most importantly, it is natural to talk to the surrounding people, which isn't in any other RPG. The dialogue system is a great move to further enhance the scenes. You can select a response for each of the surrounding people through the conversation option. The moment you choose a response, the surrounding people's emotions, thoughts, and dialogues, as well as the title screen will change appropriately. ■ Characteristics 1. Power of Glittering Elden Ring The player who works for this game is a rising character. For the name, it can be translated as "shine out." Rise the sea with the power of the Elden Ring that comes from the Full Moon Guild. bff6bb2d33
