Each player on the pitch is fully interactive, posing unique challenges to the game's AI while matching a visually-accurate player model. Stadiums can be enlarged to over 100,000 total seats or reduced to more intimate match settings. The new match engine significantly expands the stadium customization options, allowing players to adapt to any playing surface. What are Goals? Scoring is initiated by a kickoff and consists of one shot at the goalkeeper and five players for each team. The attacker can choose to pass or shoot in order to create a scoring chance for themselves or a teammate. How is gameplay scored? The game's Points and Saves system generates the appearance of a match lasting 90 minutes, as it takes place over 18

separate 15-minute quarters. The game's behavior engine modifies the physicality of gameplay based on the scores of the match.
