Kiss/OFF is a visual novel adventure with a hidden twist. There are three different routes to complete the game, with many, many endings in between. Every playthrough is entirely different, with different characters, a different Alien host, a different person to kiss, and an entirely new meaning for every action. As you go through the game, you'll slowly learn about the Ship, as well as the Alien Host and their true agenda. Bits & Pieces: Character portraits. Story Mode. Gravity-oriented writing. Twist: You won't be able to choose your Kiss/OFF partner at the start of the game. Instead, EVERYBODY gets to kiss (and get dumped) every other character! FIGHT MANY-HEADED LITTLE BITCHES: YOU ARE AN ARC ANGEL - BATTFUCKIN' HERO! Match up with up to 8 different opponents at the same time, choose any of your arms to unleash their special ability, then strategically use your special moves to KO your opponents! Four different arms to unlock in Story Mode, plus an additional two unlocked by playing through the game. Hot or Not: VOCALIZED CONTENT! When you kiss someone, two factions give you feedback: either they LOVE you or they HATE you! Choose your fate through three different unique lines of dialogue that depend on which faction you choose! Anal sex. ALL DATE FUTURE ENDINGS. No one gets left out when it comes to actually meeting the girl of your dreams. This game includes adult situations, allusions to all sorts of hard-to-believe things, sexual situations, a host of taboo topics, 4 different alien test subjects, and a guaranteed permanent birth defect if you get stuck in the endings after completing the game! A BEAUTIFUL AND INGENIOUS HOT ALIEN TURNED INVOLUNTARILY INTO A DEMON: WANT TO PLAY AS THE HOST? Turn the game into a visual novel, and change your fate for yourself! (This option also unlocks all sorts of other cool stuff in the game) It's also a lot of fun to make your way through the game while guessing at the punchline. Keep an eye out for all the secrets the game is hiding in all of its riddles. The ONLY visual novel in the universe. READY TO GO FOREVER? c9d1549cdd

The next update should be coming out in a few days, for the latest look at the game check out our update #1 (old).---- Kudos to Metal-Mime for the awesome music!]>Robocraft2Mon, 23 Jul 2015 17:30:52 +0000 this we go back to basics. All levels before the game should be played again, if you want to build a fortress from the ground up, a small start. This is a much better game to learn how to play. " No wonder, the game is not as easy as it looks at first glance, because a normal level is enough to discourage you and take away all your fun." Every level has a tutorial. You learn the basics of the gameplay here. Then you need to learn to play the game. I'm not saying you shouldn't try the levels again without this tutorial, but it does not have much use for new players, who probably just want to play the game. This is one of the biggest problems with early/tutorials in the game. " I'm not saying you should start over, but you need to accept the fact that the game is difficult to start with. If you want to level up, get more weapons or the ability to deploy your gatling cannon, you'll have to practice a lot." Do I really need to mention that this game isn't easy to play. A lot of other games claim that, but none of them really had any tutorials. Without one, you'll need at least a few hours of playing to get the hang of it, and with some luck and practice you'll get it fast. " You will notice a few ways you can lose every level in Robocraft. If you're

What's new in Hero Tower:

FAITH Ronald Reagan had a partial liver transplant operation in Bethesda, Maryland, on November 28, 1969. Just eleven months later, the Republican President would be “kidnapped and intoxicated by a deranged patient.” Was it a coincidence that the patient came from Dubuque, Iowa, Ronald Reagan’s home state? Or did even-more-disturbing facts like these make Reagan - taken to the White House as his father, Jesse Jones, lay dying - accident-prone? Hints and suspicions began to emerge about a link between the president’s liver disease and his short temper. If you Google “Ronald Reagan bad faith,” one of the first links you’ll get back is from the Wikipedia page for Ron Reagan. Below it, on a site called What Really Happened to Ron, is a very long text titled “Ronald Reagan: Bad Faith, Even When the Facts Are in.” On that page, in short, are the following words: **September 27, 1978. Ronald Reagan and his henchmen are accused of playing the worst kind of political bad faith - bad faith with intentional falsehoods. “The Reagan-Bush team was deeply concerned about disclosure of this tape.” [Reference: a 1983 interview tape of Reagan and Vice President Bush from the preliminary Senate hearings into the Iran-Contra affair.] What was allegedly on the tape was that “Iran” had something to do with the Carter Doctrine. Ronald Reagan did not want to disclose this on the American people, or the American press. When, in a later Senate hearing, Reagan was shown a partially declassified letter from the CIA warning of “traffic” (selling weapons to Iran which have been granted by Israel) Reagan was incredulous. Again, Reagan’s position did not matter. Reagan was perjuring himself, the American people were to be protected and he was protecting his son, and his own political reputation. Today, the debate rages back and forth over this. It must be said, the tape is missing. Was it a truly or falsely edited tape? A tape without a tape. Did Reagan know that he was lying? Did Bush know that he was lying? The American people will never know the truth. Lyndon Johnson found the principle by which national security secrecy works. You lie to the public about surveillance. The Reagan group went to extraordinary lengths**

Imagine a world where the land is filled with living, breathing creatures. Imagine yourself creeping down a forest path, and you can hear the leaves beneath your feet rustling, the birds singing, and it feels like you're in the middle of nature. Sound doesn't exist in the game unless a source is present, and that's just the way it is in this game. In addition to the sounds, we've included a simple virtual dog for interactions between characters. We've included sounds for dice rolling, computer keys and keys tapping in games. We've included the sound of doors opening and closing. We've also included a variety of collisions, cooking and cooking utensils, birds, and more. The world is full of natural sounds. You can either hear them or ignore them, but the change is your choice. Pete Holish offers this collection of objects and sounds a royal standing ovation. He's a perfectionist, and has taken his time making sure the sounds are natural and as good as they can be. We're happy that he has taken the time to listen to his design team to make sure the collection is as special as possible. Every dog has its day. It's not often one is spared, but sometimes that is exactly what happens! This short animation is just over two minutes long. It was made as a joke at the start of the project, but it became a strong part of this pack! This content pack was made for RPG Maker XP, but should work fine for use with any other engine. It is not compatible with the Windows 10 Creators Update, or earlier versions. This content is copyright of Pete Holish 2011. The music in the pack is Royalty Free (no catch).
