Based on the historical giant rock cracks called “gene qing”, this free visual novel features an action-RPG-esque gameplay experience. The hero of the story is chasing her beloved into the world of death. To protect her, the player needs to traverse through the labyrinthine winding paths and undead-infested caves. Along the journey, he/she will encounter a multitude of lethal

obstacles, friends and foes, and weird and wonderful people to meet. Game Features: Seven NPCs with unique personalities. Brilliant 2D art and animations. A growing cast of characters for the main character to interact with. Some of these people are going to become friends, some will become enemies. Yin, a daughter of the main character. Sun, a beautiful and unassuming young woman. Chry, one of the main characters which will temporarily fall in love with a psychopath. A mysterious assassin who has no name and only one objective, to kill the main character. This game was made entirely with Abstraction. It's beautiful, haunting and surreal. However it is not a game for everyone. Every song can be changed as you like, except for the opening theme. I hope you enjoy playing this game. PS: The main character is a man. I have mentioned in a number of the AMIGALAND reports and also in the roadmap that we want to have a bigger number of AAA titles on the eShop. I am very happy with what we have already (probably, I hope) demonstrated through Ace Attorney Trilogy and Monster Hunter Tri. There have been some Japanese games coming over that can be considered AAA titles or they really are not far off that description (a good thing that we will be able to see in 2019). We will be adding more on a continuous basis. Have you tried with the PS4 virtual memory card on itunes? And I used that for PS1 and PS2 games on my PS4. I think that is what they meant as said you need to download the games to your PS3 memory card since it is limited to only 4GB I'd love to see some DQVII UMDs. As much as I love the PC release, that's not anywhere near as satisfying. I know Atlus have been pushing this same thing, though, but I'd like to see an "experience" UMD of the title to accompany the high-res home console release. Of course, speaking of UMDs, if Atlus were to do an HD port of Crimson Dragon, I'd be all over that and I think others would as well. I'm surprised there isn't a Space Harrier UMD around. There were a bunch of them back in the day and some of them were pretty damn good. Shame that neither Space Harrier 2 nor Shark Fire Shark were released in the West, though. We will be adding more on a continuous

Citadale is a difficult action game, in the vein of Metroid, Castlevania and classic Capcom titles. It's something not many people have the courage to play, so I will do my best to keep this game's existence a secret, so they're not ashamed of it when they play it! Citadale will be released for both the PC and PS4. There's no plans for a Nintendo Switch version yet. Source: -----

Majesty's Secret Service (1997 film) Her Majesty's Secret Service is a 1997 comedy spy film directed by John Landis and written by David Koepp based on the original 1959 novel of the same name by John le Carré. It stars Gene Hackman, Tilda Swinton, Ewan McGregor, Hugh Grant, Jonathan Pryce, Edward Fox, Roger Rees and Sophie Thompson. The film is shot in the style of a spy film from the British Secret Service, and stars the same actors who appeared in the previous year's *The Russia House* and the US film *Cellular*. Plot John Steed, a former agent of the Secret Intelligence Service, now works for the British Department of Trade and Industry (DTI), an undercover department whose motto is "No more lies". He is involved in industrial espionage and sabotage, acting as a "black bag" for any governments that ask him to do so. In Paris, by his own initiation, he conspires to kill a drug baron but is instead caught in a car crash by a woman who is driving his new Porsche; she carries no identification and is apparently a professional driver hired by the baron. The crash kills her and drives the car into a wall, leaving Steed trapped inside.
