Key" is here to stay to bring you the best choice of cool screensavers. This application is absolutely free. As the adventures of Tintin the Police Commissioner continue, you are presented with the opportunity to take a trip to an alien planet and assist the inhabitants in learning more about Earth. Have you got what it takes to be the first to discover the secrets of outer space? Tintin: Secret of the Unicorn is a platform game created by Ubisoft and published by Ubisoft Entertainment in 2007, that was the first official game based on Hergé's fictional character, Tintin. Graphics: Tintin: Secret of the Unicorn is a 3D game that features hand-drawn animated sequences and cel-shaded graphics. A large portion of the game takes place on a number of different planets including Venus, Saturn, and Earth, and there is also a large portion of the game set on a train from one location to another. You will also use your own body as the platform to control Tintin as you explore. Controls: When you start the game, Tintin is in space and you need to move him to different planets. Each planet will have different things to do on it. Once you get to the planet you will be greeted by the captain of the spaceship. You will need to choose to go to a different planet and explore it or move back to your ship. Depending on the planet you will do different things. On Venus you will mine for energy and on Earth you will discover an alien race. Be sure to get the maximum amount of energy on each planet to level up the weapons. You will also need to use your weapons to fight alien monsters that will appear on the planets. There are a few different weapons that you can use to fight the monsters, and your health is displayed in the bottom-right hand corner of the screen. You will also be able to hold down a button to get health, and also have to hit a button to start your attacks. There are usually three different weapons that you will have to choose from, a spear, a
