### What's New In?

Sothink SWF Easy is a professional software application whose purpose is to help you create Flash animations, banners, greeting cards, or photo albums, while allowing you to choose between a wide range of banner templates and animated Flash effects. Working area The user-interface may seem a bit overwhelming at a first glance but this is only because the program comes packed with many dedicated parameters. You can rely on the comprehensive help manual and step-by-step approach for making the most out of this utility. The working area is divided into several panels, such as Scene, which is used for organizing your document thematically (e.g. introduction, loading message, and credits), Timeline (for adding effects to elements), Shape, the place where you can draw shapes and apply effects, Properties (for setting the properties of an element: background, frame rate, size), Resource files, and Component, which enables you to insert radio buttons or check boxes. Special effects Sothink SWF Easy offers support for various built-in effects for helping you animate your text, shapes, and images. Plus, you can edit the effects, add multiple ones to one element, as well as stack multiple effects for generating a completely new one. Thanks to its wizard mode, you can create a normal album, flip album, banner, or navigation buttons in just a few minutes. Drawing operations What's more, the tool offers support for various editing tools, such as line, pencil, square, and circle, and gives you the possibility to color elements, tweak their position and size, insert images (e.g. BMP, JPEG, SVG, EMF), embed rich-formatted text, as well as arrange your objects with the aid of a ruler, grid, and alignment operations. Built-in resources and other handy tools The program comprises several resources that include animated buttons, greeting cards, and backgrounds, so you don't have to start from scratch. There are also vector shapes and sound files included in this section. Other notable characteristics worth mentioning enable you to import SWF files, choose between several components useful for designers who are building Flash applications,

---

such as buttons, check boxes, radio buttons, scrollbars, and text scrollbars, export the project to SWF, GIF, or AVI file format, as well as add action scripts to elements and scenes for a better control over the animation. An overall efficient Flash creator All in all, Sothink SWF
