True to the 16-bit era – All the games feel and look true to the era they are from, from the graphics to the music and sound. Also, they are all hand-coded for a truly authentic and intense play experience. Local Multiplayer – You can team up with up to three other players, either locally or online, to complete the challenges and collect all the treasure in each level. Classic Soundtrack – Enjoy a classic game soundtrack for each level in the game. About DOOM Eternal – DOOM Eternal is a first-person action shooter developed by id Software in collaboration with Rocket Beans, available on Windows PC, the PlayStation 4, Xbox One, and the Google Stadia games streaming service on November 18, 2018. In DOOM Eternal players will assume control of the UAC Marine-class DOOM Slayer, a seasoned warrior reborn and endowed with supernatural abilities for his next demonic deathmatch. They must contend with the legions of Hell across multiple planets, fighting for survival against the overwhelming power of the enemies and the ever-changing infernal landscapes. DOOM Eternal brings the series to its next evolutionary step, featuring all-new mechanics, a striking VR-integrated engine, detailed next-gen visuals, and an expanded multiplayer offering. Host a Party in VR – by far the best feature of DOOM Eternal. In this mode you'll have to set up a multiplayer match on the Google Stadia games streaming service and invite other players to join, allowing you to experience playing the game with your friends in VR. Kick Ass Running - you can access the level select screen from a split screen starting position in the Stadia lobby. Synthetic Movement - running while jumping is possible! You can do it very fast, so you can run on top of a wall and jump to another one at the same time! Google Stadia Games Streaming Player - The DOOM Eternal Beta release coincides

In this stage, there are 3 stages: Stage 1 -> Only with a cat's onigiri (~60 degree) Stage 2 -> In addition to a cat's onigiri, the game is upgraded to a very high level Stage 3 -> Use magic "Tengu Saimento" During each stage, there are many enemies that kill each other. Therefore, in the "cat's onigiri state", you must run and jump and avoid them. In addition, there are traps in order to trigger "kinetic incident" that makes you touch and touch each other. Stage 1 is a standard "jump action game". If you die in stage 1, you restart again. Stage 2 is "Me and (My) Cat's Castle." There is no restriction, so it is a free game. Storyline: Your name is a young cat called "Sekai". You suddenly fall into a trap and you touch a cat that is called "Tengu". At this time, a message is displayed that says something like "If you can defeat the cat called "Tengu", then you will return to your hometown." These words are said to a cat who is chasing you in a certain cave and you are forced to run away. In the game, you must run, jump, and avoid "Cat" that is chasing you. In addition, if you touch "Cat" that is chasing you, you

are beaten up by "Cat" and you'll return to the "Normal State" by chewing and swallowing the onigiri in your mouth. You must escape from the trap that is created by "Cat". If you get killed, you will restart. If you touch a "Cat" that is chasing you and you will go to the "Normal State", you will touch a "Cat" that is another normal cat. When you touch a "Cat" in this case, the game will reset in the "Normal State". It is a very simple game and it is a good time for you to enjoy the flow of the game. In addition, if you are going to win the game, you can get a gift at the end. Tengu Saimento: If you touch each other in "Normal State" for the first time, you can use magic called "Tengu Saimento". After starting in "Normal State" again, you can use this magic
