Exile on a hostile island, hostile mist. A group of 20 explorers trapped in an enormous building and thousands of miles to the south of the earth are dead and no one remembers them. The only thing left is their advanced technology to guide them. What is not about to be discovered is the Sentinel, who has already witnessed the chaos and all the destruction. Alone and in desperate need of answers, our 20 travelers are about to discover the forgotten ones. The night wind whispers that an old man will pass by, one last time. Don't get caught in the light, there are monsters." The Sentinel is an old school adventure game, with a fully atmospheric story based on real events which happen in its early version. Discover all the secrets hidden in the cavern of the biome and uncover the life and death of the tribe of the island. «Encounter The Sentinel» Game info : The Sentinel is an adventure game with a turn-based gameplay. The player take the role of a team of 20 players, 20 explorers in a hostile island, struggling to survive. After they get out of the building to explore the island, the lights are getting out, they need to find their way to the surface, and make their way to the south, to the location of their ship. Many puzzles and exploration, many books, and countless monsters and enemies await the players, but in order to find their way they will have to overcome the Sentinel of the island and its statues...
