WinRAR Crack Key was released and updated on March 28, 2020. It is.--- layout: doc-page title: Redis Sentinel relativePath: plugins/_index.html --- # Redis Sentinel Sentinels are a great way to add failover to your cluster, and keep your clients up to date on which node is currently a master. If you are using [HAproxy](/plugins/haproxy), you can set a Sentinel for your cluster's HAProxy port. This is a great way to deal with no master in the cluster, and to automatically choose which master to use in that case. ## Using Red 595f342e71
