Depending on the mode you have 15 unique playable characters and of course lots of weapons and upgrades to help you in your fight! How to Play: When you start a match you will get a team of 4-5 on your side. Your goal is to earn points and to win! Be the best and get to the top of the leader board! You start out with the ability to attack your opponent but you can't get killed - you also can't get any damage yourself, you only receive damage when your opponents attack you. Win your matches and you'll become better then ever. As long as you play well you can receive special upgrades for that character. Watch out for triggers on the walls! If you receive damage you'll lose a part of your health - all until you recover a certain amount of your health, depending on the weapon you use. As you play well and complete a match you'll gain points that add you to the leaderboard. The higher you are on the leaderboard the higher your profile gets. Let's play! When All Souls' Who Loved You: The Elegies is the powerful and affecting debut album by the American indie folk band, Son Lux. Son Lux's debut album is a testament to unrequited love. While the band boasts an impressive pedigree, it has been constructed with a DIY aesthetic that pays more attention to the

smallest details. To put it simply: it's a powerful, confident album that will likely delight a wide cross-section of music fans. Son Lux's debut album *When All Souls' Who Loved You: The Elegies* is without a doubt filled with emotionally charged lyrics. Lyrically, Son Lux opts for the sometimes-morbid honesty that will likely be a turn-off for some of his fans but it works here. When speaking of "unrequited love" Son

What's new:

, find the victim Over the last several weeks you might have read about a beautiful young mother Karen King who had an abusive relationship with Tom, an actor who was suddenly removed from her life following two years of servitude and forced to move out of their home in fear for his life and that of the children. It was not a crime against her that ended in murder, but you can be sure we will find the killer before the silent witnesses come forward, more on that later. We will be following the case closely along with all of you, collectively. In our hearts we are a community, a family and you are all inextricably linked. It is harrowing to watch this unfold without any concrete evidence to continue this line of inquiry. No matter the happenings, the way forward matters more than anything. Article Continues After These Ads When we are newly acquainted, we begin having awkward questions about each other and their pasts. We want to know about the next social obligation the other is invited to. We want to know as many details as possible before asking. That makes us all seem foolish, but once a relationship is formed we develop a sense of comfort with each other on some level. So when approached with awkward questions now the thing is, we can only recite details. Tom was not Karen's first boyfriend after moving to Las Vegas in the spring of 2015. In fact, after moving to Las Vegas, there were two more men who would join the couple, both romanticized when we first hear of their attention. It is the pattern in most relationships that we begin to live together in one way, encounter some hardships in another. Tom and Karen met in the film industry. Tom was a writer and Karen a producer. Tom was working on a film, but they had to rewrite the script completely and her production company and his friend banded together to help fund a second draft. They would finance their own scripts and then edit and shoot their own film in between. After three years, Tom still

had not sent a completed script and it was primarily due to his lack of progress. Last week we were introduced to a woman named Mandie Dawn Reynolds who had talent as an actress. She told us Tom the writer talked about Karen's decisions which bothered her, including her policy that she only wanted to meet her fiancé's family if he had invited her to meet their families. Because Tom would not call his mother, Mandie would
