Screencast-O-Matic crack for windows, mac, iphone and android is a program that allows you to have a video screen record while your computer is playing music, recording as your talk, & Q. Woocommerce discount based on price I'm looking to have products on a woocommerce website go on sale the moment they cost a set amount. I'm looking to achieve this through the use of the discount. I've managed to get that part working. Once the product is on sale though, I'm looking for the price to go up back to the original price if the user decides to buy it again. My existing code is: `add_filter('woocommerce_discount_description', 'filter_discount_description', 99); function filter_discount_description($a) { $discount_text = __('Pay Now at $29.99'); $a['plain_text'] = $discount_text; return $a; } Is there any way I can do this using the calculation discount? I don't want the discount to apply to products already on sale. A Woocommerce's Calculation Discounts have a special discount for sales. Its a simple read to add to the discount list: add_filter('woocommerce_coupons_apply_to', 'filter_woocommerce_discount_description', 99, 3); function filter_discounts_apply_to($discounts, $product, $variation) { // Only for products with a sale. if`
