Fifa 22 Features Key:

- Live Real-Life Player Motion: The new HyperMotion Technology enhances every action on the pitch with unprecedented accuracy and player responsiveness. Adding an extra level of authenticity to players' creative actions, drives and ball touches, FIFA 22 puts fans closer than ever to football's ultimate reality.
- First-Person View and Agent-Based Play: Football's most popular feature comes to an all new immersive first person view, complete with On-Field Communications. With fully rendered teams on the pitch, and full player and team animations, players respect ball possession while passing and shooting with flare, and diving to control the ball and evade the

marksman.

- Ultimate Team: Unearth the hidden, expanded, and enhanced depth and potency in FIFA Ultimate Team. The new Amalfi Coast is included with a brand new item called Virgil's Notebook.
- AI Switches and Faces in Balconies: Choose from dozens of new faces, including new companions, opponents, stadiums, community AMLI, and even non-physical sporting attire. All-new AI switches have also been added to make the game more realistic and challenging.
- Card Player in Infrared: Modular card game mode has been added that includes infraredly modes, VC Battle, Scoreboard and Message Board. This is the most powerful mode ever introduced in FUT.
- Leading the way: FIFA World Cup™ comes to life for the first time with total stadium presentations and improved stadium lighting in every venue. Clubs now boast dynamically lighted changing rooms and improved pitch lighting.
- It's never been easier to broadcast and view all of your matches. FIFA 22 brings a new match trailer, replay news, mobile news, and Club live streams, that bring live game action to fans.
- AI Assistant: AI Assistant has moved to a new and improved AI system and allows more control over teammates, movement and tactics.
- FIFA Superstars on Windows 10: Live the legendary journey of the Superstar series with the addition of a next-gen version of the Superstars experience on Windows 10.
- FIFA Soccer Returns.
- Minor graphic and audio improvements.
- Dynamic Player Performance: The overall effects of fatigue and other gameplay variables have been developed to make combat zones realistic. For example, change the time of day and level

This is the most realistic version of FIFA Ultimate Team ever, featuring set pieces, improved play, and all-new gameplay systems including 1st Person Views. My Career - Players can now develop their very own personal playing style, take their career to the next level, and hone in on a speciality in the free and open-ended My Career Mode. This new feature also features a brand new Business Mode, with new objectives and rewards to help players take their club to the top in the FIFA with Charlie Weah - Powered by EA SPORTS FIFA 21 and Charlie Weah, the Player of the Year, FIFA With Charlie Weah highlights the best moments of Charlie's playing career. Play as the legend as he brings his personal experiences with FIFA to life. Featured Gameplay Elements New Engine - The next-generation engine, with a focus on fluidity and accuracy, is designed to bring players closer to the pitch. New tackling and ball control allows for smoother, more accurate and more effective ball-based skill moves. New goalkeeper controls are also designed for precision and agility. Four kicking styles with "pre-kick balance and precision" will help players strike the ball with clean and natural kicks. New Ball Physics - The FIFA ball now features a softer, more responsive feel when players kick or pass, a naturally occurring spiral movement, and an enhanced ball feel when players dribble and control the ball. Personal Skills - The transfer system has been reworked with more individual skills, and improve the overall feel of the game. New International Style Transfer System - Players are free to transfer to any club in the world, including the move fee. Clubs are now more responsive to players during transfers and will be willing to offer larger fees with improved contract negotiations to attract players. More Skill moves - As players gain more XP, they will improve their ability to perform new and exciting moves. Additional Cues - Players can now communicate in more ways, like cupping, with the addition of more animations and real-world contextual cues. Responsive Ground - The intelligent new response system will allow players to control the ball in a wider variety of scenarios. Players will now have a more realistic sense of the amount of space they have to attack or defend in the modern game. Training - New virtual training tools, including new Formation Tutorials, Goalkeeper Tutorials and warm-up drills will allow players to get better at any position they
