Q: MySQL how to change "less than" to "greater than" I need to change less than to greater than. The data is coming from a CMS and I am pretty sure I can't change it but I don't know how to do it without resorting to hard coded strings (like so) $sql = "SELECT * FROM `cars` WHERE `model` LIKE %".$_GET['model']."%" ; A: You can use an IF statement: $sql = "SELECT * FROM `cars` WHERE `model` LIKE '%".$_GET['model']."%' AND `greater than` '1'"; Q: can't seem to get the array_walk to work array_walk($arr, function($v) use($defaults) { $v = $defaults['v']['t'].''. $v; $v = $defaults['t']['v'].''. $v; return $v; },'str'); i need to keep the value of v1 if it is the same as v2 i.e v1 v2 array_walk a b a b a c a c so that in the end, a b a b a c a c how can i do this? thanks A: A better solution to the problem would be to use an array_map to manipulate your array and the default value array: $new_array = array_map(function($v) use ($defaults) { if ($v === $defaults['v']['t']) return $default ca3bfb1094
