"I'm enjoying a lot the variety of gameplay it offers." - IndiePick, VLDB, 2017 "Rise: Tarnished is an action RPG that may feel like a mess at first, but it will grow on you." - Screenslap, VLDB, 2017 "Rise: Tarnished is a great time, and you should definitely play this." - MMORPG.com, 2018 "The game is not particularly complex or well-balanced, but the setting, NPC dialogue, and its presentation are all quite intriguing, and the online multiplayer is considerably more entertaining than I had expected. In addition, the game feels like a beautiful mobile port of an older RPG that was beloved by many in its day." - Gamereactor, 2018 "The characters are hilariously bad-ass, the world is a flurry of fun, the music is the perfect percussive background to the action, and the game is packed full of running, fighting, and shouting. Rise: Tarnished is a great RPG you should play once." - Hardcoregamer, Gamereactor, 2018 "Even if you never played a JRPG, the game is well worth your attention." - Appznews, 2018 "It's got a good atmosphere of a game where your friends will join you at all times." - Appspy, 2019 "Rise: Tarnished has a great series of long, gorgeous battles and the promise of some fantastic world building around you when you're not engaged in combat." - MPOC, Appspy, 2019 "It's an older-style RPG with modern polish. Go check it out, and play it with as much fun as you can find." - IndieGameMag, 2019 "It's a brilliantly atmospheric JRPG that can be completed in a few hours, and its high replay value is due to its equally high entertainment value." - PCGamer, 2019 "Where the game truly shines is the combat, which is fairly simple, but is fun nonetheless." - Game bff6bb2d33

He walked up to the table, each in turn, and glanced down at the documents. She'd hit a nerve, and he had to admit that he felt sick at the thought of how often he'd seen whatever draft of that same damn pamphlet. It was almost less than a year since it had first appeared, and he'd seen so many variations on the same damn thing he'd dreamed of a world with only one Alena, and a world with only one Apple. That world was almost here, and it was all because he'd left. He took hold of the papers and flipped through them, trying to remember if he'd seen any versions with his name in them. No. He was a stranger to this world, for the most part, because he never would have designed a government that trusted its people to write their own laws. He never would have allowed the formation of a godless militia, no matter how well-founded that militia's claims might have been. He'd designed a world where the people were people. No world would be that perfect, and no one would live in such a perfect world. But it was one worth struggling toward. One worth dreaming about. It was the version he and Alena had been writing together-- He swore under his breath. He thought he'd have had a little more time, had it been good-bye or a final kiss, at least. He hadn't even known Alena for long enough to consider that kiss good-bye, or final, and maybe that was why she was in the best place she could possibly be. Maybe that was why they were there.
