Blood of Magic is an Action/Role Playing Game with Turn-based Combat. Blood of Magic centers around the combat system in which you fight a wide variety of enemies and use your respective abilities to defeat them. As you gain higher abilities you will be able to use them with more complex attacks, increasing your chances of survival. It is a turn based system where the player has full control of the actions their character takes during that turn. They only act on their turn based if they wish to. Blood of Magic revolves around a medieval-esque world comprised of 4 major kingdoms: The Obrodians, the Tiros, the Veithians, and the Vuistia. All the Kingdoms rely heavily on the most powerful crystals to infuse or enhance their citizens, granting them certain skills which would otherwise be impossible. As you progress through the game you will gain a powerful set of abilities, including a stronger physical and magical strength, as well as different magical attacks, and spells to learn along the way. With each ability or magical skill you level up you will be able to improve it, allowing you to use it in the future as a more powerful and useful attack. Your Role-play, or story will take place in the towns and various villages of the three nations of Veithia, Tiros, and Obrodia. They will all have different rules and people. From the hot-bitten country of Tiros, to the cold and crude country of Obrodia. To the tropical, vibrant lands of Veithia. Each nation has their own unique style of play, where you will be able to advance in the storyline through collectible items known as keys. They are found in dungeons scattered throughout the lands. By gaining enough keys you will be able to unlock doors to places which hold the secrets to getting further in the story. After gaining enough keys you will be able to unlock even more doors to areas which are much more difficult. The game uses a city builder, while maintaining the familiar action RPG experience. As you progress through the game you will expand into new locations and go through new dungeons which are heavily randomized, creating a totally unique experience every time you play. Key Features: • Easy to learn, hard to master combat system • Improved upon by the community to make it more fun and interesting. • Unique view on turn-based RPGs. • Deep and interesting lore that builds up during your adventure. • A

What's new:

Main Page Overview The Myths and Legends of Fairy Land is a new series for Arthur and the beasts (the stories being fictional, this is an actual sort of “Fairy” society known as a society for Sirens and Fairies, which Astrid de Terram leads). Arthur here can’t perform magic, but he has a natural dabbling in magic, and that sense of dabbling has made his skills develop from the talents being developed to an incredible level. The Stories so far As we delve into the world, we’ll be revealing the magical element of our story.... This unique system of magic has gems embedded in fairy stones. The magic is called Fairy Magic, while the construction of the Fairy Stones uses fairies who have a pair of gemstones installed. According to legend, the Fairy Maiden will someday choose the Legendary “Fairy Troubadour”, which is Arthur, and give him power over the blue-green gems. It’s believed that only Dragons can see Fairy Gems, and that only something very important is connected with each gem. Although the Fairy Zone Falls aren’t an actual location with a physical location, it is a location of distress. If any problems can be resolved within the fairy zone, it would not be made public due to various situations like losing Fairy stones or gems. The Fairy Stones were a complete success, as mentioned above. Arthur got the opportunity to start his career as a Fairy Troubadour. Arthur put on a Yellow Fairy Dress, in accordance with the Fairy Maiden’s request. One of the fairies attached to her personal Fairy stone outside of the dragon rift noticed that the gem was broken. “We are alone in the outside of the castle, without any chances of being found...” “I want to soothe her continuous chills...” Arthur walked towards the side of the palace of the Fairies. “Could I... do anything?” “It’s for now...” “If there is anything...for the Fairies...I humbly ask for it...” “If you insist...then she will lie...and tell you to come inside, just like last time” “Auntie, there’s
