War is a dirty, dirty game. One player is always winning, and it's not because they're clever or well-equipped, but simply because they have the best team and the best soldiers. So when your team is wiped out by an opposing force, it's up to you to not only keep your own team alive but also to get your hands on that precious supply or cleverly use an enemy base for your own purposes. Tanks vs Tanks is a real-time strategy game where you command a team of 4 soldiers each with their own abilities, strengths, weaknesses, and specialized classes which grant access to new weapons. You must use this to outsmart your enemies and strategically exploit their defenses. You are very much in the trenches with this game as you will be taking on the role of both sides of the conflict as a Tank Commander and a Soldier Commander. As a Tank Commander, you control a team of 4 soldiers known as Tanks. A Tank is as durable as they are numerous, and they can be used to quickly clear obstacles, maneuver, and get up close to your enemies in order to quickly dispatch them before they can hurt you or your team. Tanks can be ordered to form a line of defense in front of your base, use their powerful armaments to destroy any enemy soldiers or even vehicles approaching your base, or use their multitude of abilities to pull off maneuvers never before seen. As a Soldier Commander, you are assigned to a Tank as a single Soldier. Each Soldier has a unique set of abilities which you must use to get ahead of the enemy by performing maneuvers, silencing your enemy's sensors, and even calling in an air strike on an enemy base. It is up to you to use the strengths of all 4 of your Soldiers simultaneously to create a terrifying and invulnerable force that can wipe out any enemy team. As you succeed, you will gain more equipment that will provide upgrades to your soldiers and Tanks and allow you to call in more powerful airstrikes and airstrikes that will help you to crush your opponents and unlock additional gameplay mechanics. There is only one ending to this game, and you must succeed on all fronts in order to prevail. Key Features: • Includes an AI to help you plan your attacks and map tactics • Use an array of tactics to take out the enemy and win this war. • Play as a Tank Commander and a Soldier Commander both while controlling and calling in reinforcements. • Includes c9d1549cdd

Motorsport Manager is the go-to strategy game for budding motorsport managers the world over. It's our sixth game, however, and we're hoping to take it in a new direction. It's a game where you can experience the thrill of running your own team, either locally or internationally. You'll assemble the best cars, the best drivers - and even design your own circuits... but only if you have the cash. We'll also be giving away free MOTOMAN drivers and cars for the month of May, so make sure you're following us on Twitter, Facebook, LinkedIn and YouTube. Most people in motorsport now realise the "more the merrier". No single person has ever won a Formula One World Championship on their own. That's precisely why we're giving

people the chance to team up with friends, rivals, sponsors or even other races. Will you (or should you) be joining the likes of Richard Dean? Only one way to find out... Motorsport Manager

The ancient classics of rogue trading finally come to mobile devices! Participate in trading and get ready to feel the real thrill of the market with the amazing characters and unforgettable graphics! The game is based on the best genres of the classic RPGs. There is no "pay-to-win" as you progress through the game, spend money on various upgrades like gaining experience, buying potions or healing. There are no advantages to spending money! Look for the unique features like: -- Use in-game currency to buy items in shops or invest in your game account. -- Invest in the virtual Game Account that includes a real-life bank account with a fixed interest of 10% a month. -- Use your real money to buy a virtual character: Look for a virtual companion with unique skills and traits. -- Buy and sell in the markets, discover the unexpected and enjoy the vibrant and colorful game atmosphere. The game provides an opportunity to engage and interact with other players as you gain confidence and

experience. There are trading competitions in which players demonstrate their skills to challenge their opponents! The game is distributed under the Creative Commons Licence (CC-BY-NC-ND). "The point of the game is to play at your own pace, and not be rushed. In the early stages you may have to invest and give up some money in order to play and progress, but always remember to invest wisely and to remember the essence of the trading game: to invest and make profit, not to invest and lose!" The Mobile Game Arcade Android Market Comments A Google UserMar 26, 2015 gla It's not that good, it's fun if you want to collect money, it's pretty fun if you want to relax and go to the market to buy and sell things, otherwise no, there's no real skill in this game. There are more and more of this kind of game out there and as long as you don't need skill or think you have it or play the game just to make money you should be alright with it, otherwise I won't recommend it, this is not all what it looks like, and especially when you see the amount of free games there are all over the internet. A Google UserMar 02, 2015 breezy 'Dingos' :D A Google UserMar 02, 2015 ZeusPILOT: Wahaha! I'm SOOOOOO excited about this game! I already bought the game for
