Basically, it looks and feels exactly the same as Fallout 3. But, it's better. At the beginning, you will be forced to play an all-levels game. That's ok, but it's a bit of a bore when the only combat is mass combat. In the rest, you can use any kind of weapon you want. Sometimes, you'll still have to do mass combat, but it's not always the same and it's not the main part of the game. In this mod, you also can start on any map and you will have a lot of choices to play with. And the number of NPCs is increased. It's a lot to say about the mod, but, here, you'll understand what's up. I really like this one. I have had four issues with it, but they were all little things. And, the mods are very good. You can use your click-to-fire, and you can pick up things so you can throw them for big damage. Of course, as the average scene is a lot of fun! I spent \$10 for a total. Overall, it was worth it. Thank you to the mod creators. sex, pussy, lolita, 18, dannie, mature, spiced up, doll, Fallout 4 Mods Adultl. Fallout 4 Mods Adultl
