Serif Affinity Designer 1.7.3.481 (x64) Multilingual. a private server requires the player to save the game data (e.g. save files) before quitting the game. PvP servers are usually private servers, but there are a few special servers for large parties. All new players that join a server must first pass a three-step progression system. These are the prerequisites required to rank up and move to the next tier and start gaining access to certain features and improvements. The three steps are: 1. Cappan Bloodlust Tag This is the hardest of the three steps because a player has to complete a certain number of missions to get their three-digit Tag, which grants them access to the capped tier of the server. 2. Cappan Plate Tiers The second step is the easiest one. A player has to complete the same number of missions for each tier of the plate system (each button on the character), and they must do so without taking damage. This step grants the player access to the capped tier. 3. Capstone (Gears Level) This step is the final one, and it requires the player to perform certain feats and complete challenges to gain access to the highest caps of the server. There are some PvP servers that offer PVP progression keys, which are basically a key that grants the player exclusive access to all PvP servers, and you will not have to buy those keys. This is a list of PvP servers:
