A: Just create a lib folder within your asset folder and paste all of your assets (not only the music folder) into this folder. They will have the names of your source files (Music/Listen/Artist/Album.mp3) Now, when you use Unity's makefiles to add assets, it will automatically search through this folder for assets and give you the correct 'path' to each asset. To further understand the steps mentioned above please visit this. How to use Unity Assets with Photoshop in order to learn how to move assets between the two platforms. Loading... Searching...
