Krukenberg tumor is a rare form of gastric cancer composed of metastatic involvement of ovaries with low-grade mucinous adenocarcinoma. A 33-year-old woman presented with a malignant intracranial tumor (2 cm). Postoperative pathology revealed metastatic malignant meningioma. This case highlights the importance of a high index of suspicion in the evaluation of a patient with a known malignancy. Difference in the in vivo functional expression of the oxygen-sensing guanylate cyclase in splenocytes of alloxan diabetic and non-diabetic hamsters. Alloxan diabetes is the best-characterized experimental model of non-insulin-dependent diabetes mellitus (NIDDM). The effect of insulin on cellular signaling pathways underlying glucose metabolism and its involvement in diabetes-associated complications has been partially elucidated. It is known that in vitro, insulin inhibits the stimulation of guanylate cyclase (GC) by glucose in rat liver. We have studied in vivo the response of guanylate cyclase to glucose in splenocytes of alloxan diabetic and non-diabetic hamsters. Dexamethasone, used to maintain the integrity of the blood-brain barrier, did not influence guanylate cyclase activity, probably due to the difference in the time-course of the treatment used in vivo and in vitro. When splenocytes of alloxan diabetic and non-diabetic hamsters were incubated in the presence or in the absence of glucose, the GC activity was inhibited to the same extent, while insulin was able to stimulate GC activity at both time points. These results suggest a down-regulation of GC in diabetic splenocytes. Has it been a long time since you've logged into your GMail account? If not, now is a good time to hit that "Log in" button. Q: Open Camera Application after NFC Tag is scanned - Android I am trying to open the camera application after scanning a NFC tag. So far I know that NFCAdapter can be used for it, but I can't seem to find how to open an app from the NFCAdapter. A Document Viewer example could be useful also, along with some documentation on NFC A: I ended up using NFCAdapter

startActivityForResult(intent, 0);
And then overriden
