The video hosting site YouTube, which hosts thousands of videos, is considered one of the most popular. But as it turns out, not everyone has the opportunity to watch this video channel because not everyone can access the Internet. There are also places where the Internet is not available at all. There are still places where you can get on the Internet. But not everyone has a laptop, or a computer with Internet, and sometimes not everyone has a cell phone, or even a cell phone. This means that not everyone has the ability to watch this video feed. That's where I decided to post my videos. And, since I live in a village, near a small town, it would be easier for me to do this using the Internet, which is available in any village. So, my video channel has started. Subscribe to it, give your likes. Let's be friends. The channel has videos about how I prepare firewood for winter, how I plant potatoes, how I make hay for the winter, there are videos about hunting and fishing. The channel has videos about my hobbies and our life in the countryside. To get to my channel, please enter the word "youtube" in the search bar of your browser and you will see all my videos.
