

## Download

So lets start the process of Epson Resetter Tool (EPSON Ink Resetter Tool) installation step by step. All the steps mentioned in the manual below are implemented. So follow it carefully. 5. A default username and password. They are shown in Figure 5.1. If you have installed the adjustment program on your computer by clicking the download link above then these default username and password will be also installed. If you are a first time user then these passwords may be the same as those shown in figure 5.1. So while installing this program make sure you remember these passwords. Download and install WINRAR on your computer. WinRaR download link: Important Note: It might be possible that your already installed zip file software has gone outdated. Outdated zip software may have the following issues: telling the wrong password (but the password is correct) and showing an error while extracting the zip file (but the zip file is OK). So install the latest version and ignore this type of issue. 2. Disable your antivirus for 15 minutes. Heres the guide: Important Note: If you do not disable antivirus then you may get an error message while extracting or running the adjustment program (Resetter). 3. Download the resetter once again to a new location. 4. Now extract it by right-clicking on it and click on the Extract to option. 5. While extracting it, it will be asking for a password. So the password is: fpdd 6. Run the adjuster program and follow the instructions.

### Epson Adjustment Program T60 T50

The Epson L310 printer and Epson L210 printer are two popular printers that are broadly used for the print and copy function. The problem that keeps coming up is when you get the Epson L310 Printer Reset Error message displayed on your screens. Most of the time you will get an error which says, The service of your L310 Printer has been cancelled. Please contact your local Epson Service Center. Locate your Epson Service Center and repair the printer is your only way of getting rid of this error.
