
TMS Component Pack 8.9.2.1 For Delphi 10.3 Rio [EXCLUSIVE]

Contains various kinds of combo boxes, edit boxes, sliders, tab controls and list controls, file directories, file browsers, input mask and more. Informations Status: Trial (work while IDE is running) Source: On purchase/registration price: \$499 Size: 115 922kB Platforms: D7, D7W64, DXE, DXE2, DXE3, DXE4, DXE5, DXE6, DXE7, DXE8, FM3, FPGL Features: Unicode-aware versions of most Delphi standard UI controls Multi-lingual support for 10+ languages (using your own localization files) Whether you need a Unicode-aware TLabel, TEdit, TFileStream (file names!), TOpenDialog and so on, this component pack has it. There are multiple versions of this control pack out there and the official one is now maintained by TMS Software and can be obtained for a rather cheap fee of just EUR 30. Another version of this library with support for Unicode exceptions is freely available from mh-nexus: Informations Status: Trial (work while IDE is running) Source: On purchase/registration price: €30 Size: 54 741kB Platforms: C10.1, D10.1, CBXE6, DXE6, CBXE7, DXE7, CBXE8, DXE8, C10.1, D10.1

TMS Component Pack 8.9.2.1 For Delphi 10.3 Rio

The Virtual Treeview is so flexible and is so widely used by Delphi developers that we wanted to make the most of it for Delphi 10.3 Rio. We therefore decided to release a new updated version of our Unicode aware Virtual Treeview component. We hope this new component (VTU1.1) will do for you, what the original Virtual Treeview did for so many Delphi developers. In fact, this new version is twice as fast as the original component and is fully Unicode-aware. It also supports RTL for routines and thousands of features from Mike Lischke's great Unicode library. Plain and Skinned controls While the original VCL components are very useful, some of them come with a plain or a skin by default. So if you want to use a particular skin with your application, you have to be sure to include the required resources. This is particularly true for combo boxes. So if you want to use the dark combo boxes with a blue background, you will have to make sure you include the corresponding skin and resource. With this component pack, you have the choice of the plain or skinned VCL combo box. If you have any questions about this component pack, or any problems you might encounter with using this component pack, you can contact our support team. All of this is done without any kind of obligation for the developer to provide any support or update to the component or the package, it is up to you to provide such support or update, if needed. After you have purchased the library pack, you will get a name and a license file in the zip file. This file is then included in the library you have just purchased. The license file is a plain text file which you need to open in a text editor. If you open it, you will see a plain text license file which you are free to edit, modify and/or distribute. This file is considered "open source" as long as your modifications are included in the library itself. 5ec8ef588b
