## Zombotron Full Crack [FULL] [UPD]

A brand new entry to the Zombotron series! Blaze Rush is a mercenary desperate for a job. In search of an easy payday he follows a distress beacon to the surface of a dangerous planet and the remains of an ancient crash site. There he finds a mystery that will test his strength, his resolve, and every gun in his arsenal. Zombotron features an arsenal of weapons and armor, enemies that hate one another as much as they hate you, and really nice explosions for an experience thats out of this world. Why go for headshots when you can drop a zombie down an elevator shaft Or crush them beneath a pile of rubble. Or set of an elaborate daisy-chain of dynamite around them. Or run them over in an ATV. Or you get the idea. Lets face it, a lot of times when it comes to side scrolling beat-em-ups, theres always one character on the roster who isnt as much of a badass as the rest. He may be pretty fast, but his attacks are average and he wont be having alot of firepower. Even if his damage is higher than the other fighters, at least theres some variety in gameplay. But what if theres not just one character in the roster who doesnt make the cut? What if there were more than just four main characters to choose from? And not just any characters. If heres your chance, pick the best hero out of your team, and send him to take out your foes. And not just any foes either. Think fast, think like a ninja, and think smart. You could end up being the hero who takes down theres the king. Your mission, should you choose to accept it, is to take control of the Zombotron and destroy everything around you. Your goal is to get from one end of the map to the other, using whatever resources you can gain. But beware, if you get stopped, theres the chance that someone else will swoop in and take your place. Fortunately, you can build your own Zombotron to better protect you. You can scan enemies, drop coins, fight on the fly and more. And lets not forget about the awesome games of chance and skill you may encounter along your way. Special items like a Quick Feet potion, Critical Damage weapon, and Mega Blast armor will help you along your way.
