this is the complete list of 15
sactros that were released in
the sac art packs between
december 1994 and may 2007.
many intros were programmed
for ms dos and do not work
under windows 32/64 bit
anymore. i was able to use a
dos emulator and capture most
of the intros in video format that
you will be able to see how they
looked like. i provided links to

download the original video as well as links to watch the video online at [youtube.com](https://www.youtube.com). i also provided links to the intro resources, where i was able to rip them or where i had them available. this includes music used and graphics, like logos and fonts. there were several intros released by sac members that were not included in sac art packs releases. those intros are not included in this list. enjoy!

carsten cumbrowski aka roy/sac (superior art creations founder and leader 1994-2001) sac intros sac intros are the intros that were created specifically to accompany a new superior art

creations art pack release. only 1/3 of all sac artpacks had an intro included. most of the 13 intros were released with the very first art packs. except for one, do all packs during the first two years of sac had an intro. this is unfortunate, but it is hard to create intros for creaking groups or bulletin boards, which were used over and over again and seen by many people and then find the time to do the same great job for an intro that is only being used once, for a single art pack. okay, we did re-use an entire intro without code, graphics or music changes once, but that was an

exception.
