**Tomtom-ttsystem-patch-carminat**

April 21, 2014 - I'm struggling to update my built-in car (Renault Clio) TomTom. . would it be necessary to do the same for ttsystem/PNDNavigator? And what interface does ttsystem have? I'm in a stalemate. Can anyone help me or provide me with any information on how I can do this As you say, you probably want to do this first. TomTom has a built-in system that can display maps and use your data offline. PNDNavigator is more complex, but for most vehicles you can use it to update maps and transfer your data to TomTom.
